CONTRACTS, GRANTS, AND SPONSORED RESEARCH

2021-2023 Principal Investigator/Project Director (25%), "Citizen Potawatomi Nation Tribal Opioid Response (TOR)" grant (Total Award 3.2 million over four years).
The purpose of the TOR program was to assist in addressing the overdose crisis in Tribal communities by increasing access to FDA-approved medications for the treatment of opioid use disorder (MOUD), and supporting the continuum of prevention, harm reduction, treatment, and recovery support services for opioid use disorder (OUD) and co-occurring substance use disorders. The TOR program also

supported the full continuum of prevention, harm reduction, treatment and recovery support services for stimulant misuse and use disorders, including for cocaine and methamphetamine. Dr. Rojas provided clinical assessment and management of TOR patients and programming and interfaced with TOR partner providers to ensure the best treatment experience for tribal members. He provided community education, network and partnership building to develop a Continuity of Care framework for CPN Health Services using agencies/providers within the Shawnee and greater OKC area. Dr. Rojas worked to reduce stigma through podcasts, articles in the tribal newspaper, and guest editor contributions.

2021-2023 Principal Investigator/Project Director (25%), "Citizen Potawatomi Nation Community Opioid Intervention Pilot Project" (Total award 500,000/year over two years)
Dr. Rojas oversaw the implementation of project activities and coordinated project services, development of materials, training, communication, information dissemination and negotiation of contract continuations with both inpatient and outpatient service providers. He provided day-to-day supervision of all project activities and staff and conduct necessary project meetings. Also served as the psychologist for this project, Dr. Rojas provided clinical assessment, management and referrals for behavioral health patients suffering from opioid/substance use disorder (OUD) (SUD).

2010-2021 Principal Investigator, 57% Effort, "Workforce Development Grant," Sponsored by Oklahoma Department of Mental Health and Substance Abuse Services, State of Oklahoma
Funding (Total Cost per Year): \$105,000.00
Workforce development grant to provide training for Oklahoma's state-funded and supported substance abuse treatment agencies. This Fellowship Program in the Department of Psychiatry and Behavioral Sciences has been funded by ODMHSAS since 1998. The principal aim of this program was to provide comprehensive postgraduate training in addiction to psychiatry, psychology, and social work trainees. The trainees from this program were intended to enhance the capacity of the State of Oklahoma to address the continuing service needs in the substance-abusing sector of its population. I was a fellow under this grant, and from 2005 to 2008 was the director of the fellowship. Since 2008, the emphasis has been on training the behavioral workforce in Oklahoma's state-funded treatment agencies. Responsibilities include providing on-site training to all state funded treatment programs in Oklahoma, responding to the staff development training needs of ODMHSAS, and serving as a resource on the OUHSC campus and to the community.

Non-Funded Research

2019-2021 Co-Investigator, "COVID-19 Fear Study," An IRB Approved Study to measure HSC Employees, Students and Affiliates' Fear of COVID-19, Sponsored by Institutional Research Board - OUHSC,
The purpose of this study was to use the Fear of COVID-19 Scale to

measure the fear and anxiety of COVID-19 among faculty, staff, students, and affiliates of a health sciences center that have a patient care or non-patient care career emphasis. This assessment will help identify specific areas of need where mental health services may be necessary within health related employment sectors throughout the recovery of the COVID-19 pandemic. The study was modified to include the behavioral workforce statewide.

Professional Service Agreements

- 2019-2021 Consulting Psychologist, 25% Effort
Sponsored by Arcadia Trails Integris Center for Addiction Recovery, LLC, Local
- 2012-2020 Consulting Psychologist/Program Consultant, 25% Effort,
Sponsored by Integris Health System, Local
Consulting Psychologist to provide clinical DNA, program development, and expertise for the Integris Arcadia Trails, a treatment center bringing advanced, integrated treatment to those facing addiction. Served as Clinical Consultant, Program Consultant, and Chair of the Clinical Committee for Arcadia Trails from 2012 to 2020. The facility opened in May 2019. I am recognized as a founding visionary member.

INTEGRIS to Build Treatment Facility for Addiction Mental Illness and Trauma

Plans and Public Launch of \$35M Campaign Revealed at Groundbreaking Ceremony

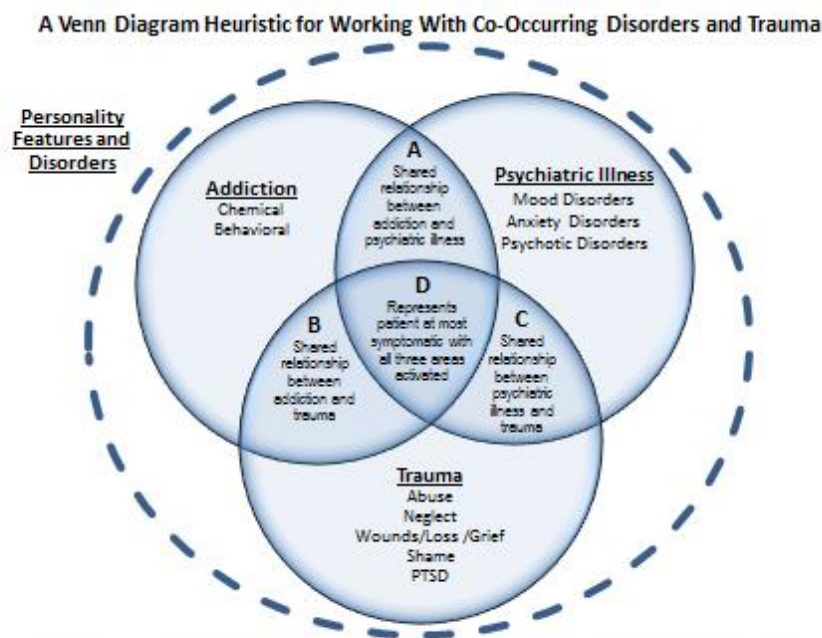

- 2015-2017 Program Consultant, 20% Effort Sponsored by Valir Health, *Program consultant to provide clinical and program development expertise for The Addiction Recovery Center (ARC) (a private women's detox facility opened in Feb. 2016)*

- 2012-2017 Program Consultant/Staff Psychologist, 20% Effort, "Staff Psychologist," Sponsored by Vizown, Private
Co-Founder, Milagro Ranch, a women's substance abuse treatment center which utilizes my copyrighted Venn Diagram heuristic, an integrated paradigm for the treatment of addiction, psychiatric comorbidity, and trauma. The program was purchased by Valir Health and rebranded at Vizown.
- 2006-2007 Psychologist Consultant, Eagle Ridge Family Treatment Center
I secured a contract to provide clinical services to ERFTC in 2006 and 2007. The contract provided for psychological testing for women in substance abuse treatment programs and opportunities for two postdoctoral fellows to experience clinical training and supervision in the area of psychological assessment, diagnosis, feedback and treatment planning.

INTELLECTUAL PROPERTY

Copyrights

Rojas, J. "A Venn Diagram Model for Conceptualizing Co-Occurring Recovery," HSC12004. (Issued June 8, 2012)

Julio I. Rojas, Ph.D., Copyright, The Board of Regents of the University of Oklahoma 2012, All Rights Reserved Licensed Exclusively in Oklahoma to Valir Health for use at VizOwn and The Addiction Recovery Center (ARC).

Highlights about the Venn Diagram

- Issued in 2012 and Received Award from Office of Information Technology in 2016 for the first clinical copyright of its kind, that also earned licensing fees

- Venn diagram provided the clinical framework for ExecuCare, a program I developed to address addiction, mental illness, and trauma in healthcare professionals and executives in 2005.
- Authored several articles in journals and national addiction magazines/newsletters on the Venn diagram.
- I have presented nationally on the Venn diagram at addictions conferences and the National Federation of Physician Health Programs.
- The Venn diagram provided the clinical framework for Women's 90 residential treatment Center in Pink, OK in 2013, Milagro Ranch. I was a co-founder.
- Milagro Ranch sold to Valir Health and rebranded as Vizown. Valir Health purchased the exclusive licensing agreement for the Venn diagram from 2014-2018.
- Venn diagram used as clinical DNA to develop The Addiction Recovery Center (ARC) detox in 2015 at Valir Hospital. I was a co-founder.
- Venn diagram framework was the preliminary model for the INTEGRIS Edmond Arcadia Trails Addiction Recovery Center in 2012. INTEGRIS decided to develop their own model using my expertise in integrated treatment for co-occurring disorders and trauma. I served as a program and clinical consultant, and clinical provider, from 2012-2020.
- Venn diagram used as exhibit in landmark case State of Oklahoma v. Johnson & Johnson in 2019. I was the state's first witness.
- Venn diagram used in teaching Clinical Interviewing, Motivational Interviewing, Diagnoses and Treatment of Substance Use Disorders, Understanding Addiction, and most lectures I conduct.
- Venn diagram used in lectures to Parents Helping Parents to help parents and loved ones understand the complex interaction between addiction, mental illness, and trauma and why integrated treatment should be the standard of care
- Venn diagram used in Addiction Elective lecture for medical students on co-occurring disorders and trauma with Dr. Andy Sullivan.
- Venn diagram featured in a national addictions magazine for addictions counselors

- Venn diagram was slightly modified to conceptualize understanding the challenges of addiction, mental illness, trauma, and sexual minority status in individuals who identify as LGBTQ+.
- Venn diagram used to understand addiction, mental illness, and trauma in Athletes, the article was first authored by a mentee.
